Cool stuff

PowerShades

Save Energy

Reduce energy loss by up to 30%

Security

Increased privacy when you are home and the illusion of occupancy when you aren't.

Safety

Cordless and motorized systems keep children and pets safe.

Effortless Comfort

Filter light, regulate temperature, and transform the mood, all without lifting a finger.

Connectivity

PowerShades has an ever-growing library of control system drivers as well as a custom set of UDP commands.

Battery-Powered

TRUEPoE

We know that every project is unique, that's why we offer power options to fit any project, whether it's brand new construction or a retro-fit job, we've got a power option to fit.

Voice Control

"Alexa, open living room shades."

Control your shades with a simple command using our Amazon Alexa skill or Google Home skill.

Power & Control

Dashboard

Our cloud-based Dashboard enables you to set scenes, configure schedules, create groups and control your shades. Our Dashboard can be used in conjunction with a 3rd party control system or as a stand alone system.

- Set Schedules
- Configure Scenes
- Control Shades
- Create Groups

Power & Control

Mobile App

Control Shades and Groups from your phone with our native iOS and Android apps.

Accessories

Cable track system

Our cable track system allows you to anchor the shade so it stays in place in the breeze.

Lightning track system

Zipper side channels tightly anchor the shade and create a fully enclosed screened-in area.
