

RadioRA3 | Sunnata RF Controls

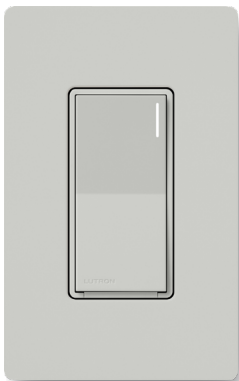

**Sunnata RF
4-button keypad**

The new RA3 lighting control system brings the contemporary lightbar design to a full range of beautifully designed products—dimmers with capacitive touch technology, switches and keypads. The light bar also acts as a locator light to help homeowners find the switch in the dark, and the light level can be customized, including to off if clients prefer no light in places like the bedroom.

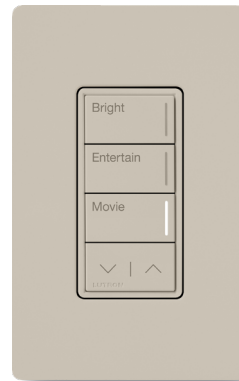

**Sunnata RF dimmer
and companion dimmer**

**Sunnata RF switch
and companion switch**

**Sunnata RF
2-button keypad**

**Sunnata RF
3-button keypad with
raise/lower**

**Sunnata RF
4-button keypad**

Simply Beautiful Controls

One dimmer for any job with PRO LED+ advanced technology for superior dimming of LED, halogen, incandescent, MLV and ELV lighting

Touch or swipe the light bar to set the lights.
Sunnata RF dimmer

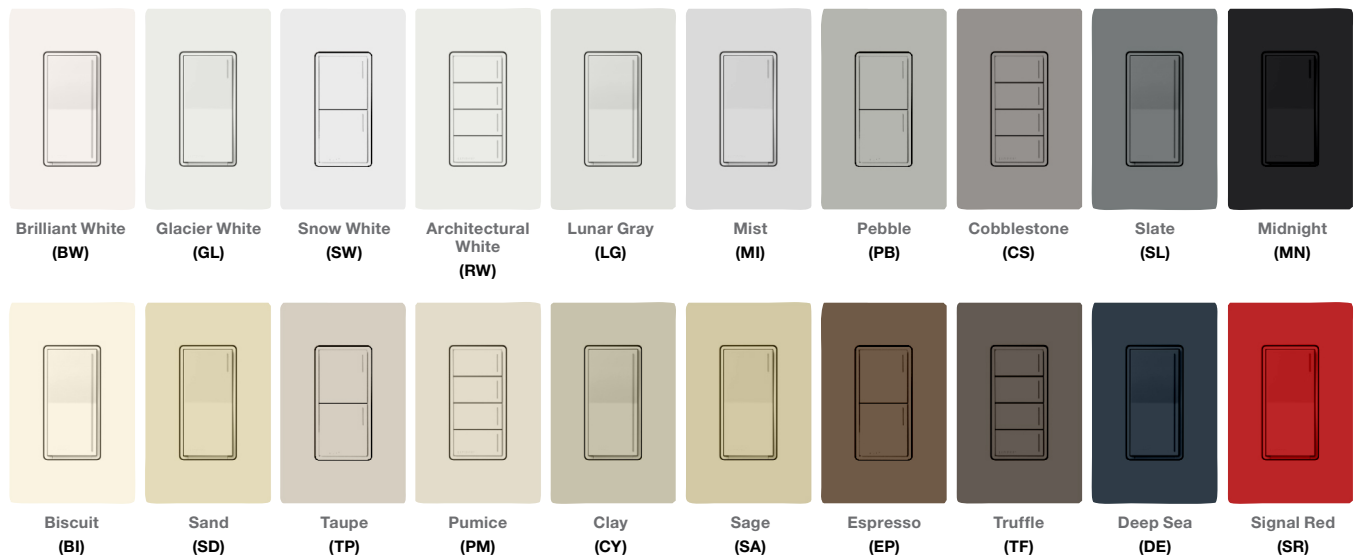

Multi-Location

Companion dimmers and switches are available with a matching look and identical control from up to 5 locations using existing wiring (e.g. 3-way, 4-way, etc)

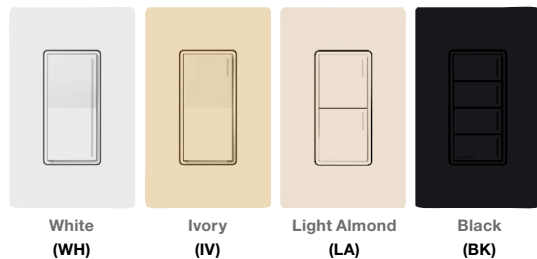

Sunnata RF switch
