

**LG TV AI ThinQ**

Designed specifically with the Custom Integrator in mind

The features that Custom Integrators have been looking for are now available on select LG TV's. With features like CI Centric Public Display Mode, HDMI, WiFi and Host Diagnostics Mode, IP Control and RS232 Serial Control.

### Public Display Mode

Gain greater control and flexibility during your system setups, while disabling certain features within your client's public display mode. Disable or enable what you see fit, lock out specific features, select "power on" defaults, enjoy the convenience of USB cloning for easy settings replication, and more.

### Partnerships

Every job has its challenges and LG has solutions with integration made easy. LG has developed strong relationships with the most important names in the world of custom integration. Trust LG to simplify integration, making jobs smoother and quicker.

### HDMI Diagnostics

With HDMI diagnostics built-in, separate devices are now a thing of the past. Simply access the hidden menu to further diagnose issues with HDMI signal distribution to LG TVs. Save time and hassle when it's time to troubleshoot.

### Reach LG portal

The Reach LG portal is your one-stop shop for mechanical drawings, spec sheets, user manuals, training modules and all that your business needs to help make every custom installation job a success. [LGUSA.com/pinnacle](http://LGUSA.com/pinnacle)

### SpectraCal

With SpectraCal®'s CalMAN® with AutoCal software you can complete your TV's color calibrations in minutes instead of hours.
