

RadioRA 3 In-person Qualification Training

Student One-Page Reference

PRE-CLASS TASKS!

-Create myLutron.com account and log in to LCI online

<https://lutron.docebosaas.com/US/pages/106/lutron-radiora-3-qualification-training>

-Find and enroll in “LP 831 - RadioRA 3 - Qualification Training” on LCI

<https://lutron.docebosaas.com/us/learn/lp/91/lp-831-radiora-3-qualification-training>

-Complete the following:

System Architecture and the RadioRA 3 Processor (OVW 740) ~10 minutes

Clear Connect Wireless Technology (OVW 741) ~10 minutes

Sunnata RF Keypad (OVW 742) ~5 minutes

Sunnata RF Load Controls (OVW 743) ~10 minutes

Maestro/seeTouch Controls (OVW 744) ~10 minutes

RadioRA 3 Plug Load Controls (OVW 745) ~5 minutes

Pico Wireless Controls and Radio Powr Savr Sensors (OVW 746) ~10 minutes

Lumaris Smart Lighting Programming Walkthrough (OVW 822) ~10 minutes

These online modules will help you get some of the baseline knowledge needed to be successful during the in-class training portion.

-Download and Install latest Lutron designer (required for in-class training)

Download from here: <https://www.lutron.com/downloadlatestdesigner>

Install Lutron Designer Software (may require admin account on your computer)

View system requirements here:

https://assets.lutron.com/a/documents/lutron_designer_system_requirements.pdf

You will not have access to RadioRA3 software in Lutron Designer at this time. You will be given access on the day of in-class training.
