

Attention, Custom Integration Partners!

This year LG will be offering live online product trainings to review the **new 2022 Home Entertainment product lineup**. Training sessions will be conducted online via Microsoft TEAMS.

The trainings will be broken out into **five separate topics** presented twice each day, Monday through Friday. The following week will be a repeat of the first week so there will be plenty of choices to select from. For each day, choose the time that works for you, for a total of 5 sessions.

Registration is simple: just click on a link to sign up for a time and day. Then enter your name, company name, city, state, and an email address to receive the log in information.

Get ready to learn more about our product lineup and features by registering below!
