

BEALE STREET AUDIO

Get Reale. Get Beale.

BS650 IN CEILING 6.5" 2-WAY

Our BS Series is exactly that...**B**asically the **S**ame as most other entry level speakers on the market today. Although our BS Series has popular features such as pivoting tweeters and bezelless magnetic grills, there is no Sonic Vortex, and nothing fancy...except that we're actually willing to admit it. It works, it sounds good for what it is and it's priced to match.

The BS650...when the budget or need for the better stuff isn't there.

Just keeping it Reale.
