

Contractor Series In-ceiling Speakers

We understand the importance of having speakers suited for the scope of any project.

Keeping with our philosophy of delivering great sound at every price point, Elac has created a series of speakers designed at an entry level price point.

Primarily suited for the contractor market, these speakers deliver a level of performance that is unexpected at this level.

Recognized around the world for manufacturing speakers with exceptional build quality and unmatched performance, ELAC continues to deliver with our new Vertex Series of speakers.

CONTRACTOR SERIES IN-CEILING SPEAKERS

Polymer Tweeter

The Contractor Series of speakers uses a Polymer tweeter to create an unexpected level of detail

Polypropylene Cone

Polypropylene is employed due to its improved internal damping and smooth high frequency roll-off

Intricate Crossover

A custom multi-element crossover with audio-grade components is implemented to ensure smooth transition between the drivers

Slim Profile

A slim profile paintable magnetic grill allows for the speaker to virtually disappear in the room

Accessory Products

Optional square grill adapters are available to cosmetically match square lighting. Optional pre-construction brackets are available to aid in installation or use in ceiling tile applications.
