

Product Specifications

3/8" x 54" Flex-A-Bit

Part number FB3854
Category number 6360
UPC 781002370000

Flex-A-Bits are used to drill in hard to reach areas within walls or small openings. They are manufactured with a flexible spring steel shaft and a permanently brazed self feeding point for work in cumbersome areas. They have a tapered back for easy retraction and a small hole in the tip for wire and cable pulling.

Physical Characteristics

Type	Flex A Bit
Bit Diameter (in)	3/8"
Overall Length (in)	54"
Material	Carbon Steel
Finish	Black Oxide

Packaging Details

Standard Qty	1
Master Qty	20
Price Per	1
Package Length	58
Package Width	3
Package Height	0.4
Package Weight	0.5
Net Weight	0.5

Performance Data

Applications	Wood Drilling Within Walls
