

PROFICIENT®

Reference SERIES

Impeccable Sound, Thrilling Power, Expert Craftsmanship

Proficient® FTEQ-12 subwoofers push the envelope for ultra-high-performance subwoofers. Featuring dual 12" force-canceling active drivers, each powered by a dedicated high-output 1000W amplifier, with onboard DSP (Digital Signal Processing) that offers wireless setup and control via a mobile app. The FTEQ-12 accurately reproduces low frequencies down to 17Hz, delivering an experience that can be both felt and heard, ideal for playback of music in listening rooms and motion picture content in home cinemas. The piano black, high-gloss lacquer finished 1" MDF Cabinet is crafted to compliment other high-end, A/V components, bringing unprecedented sound performance and beauty to every environment.

The intuitively designed Sub Station app eliminates the complexity of subwoofer setup. Tuning control is seamlessly managed from the app, including an auto-EQ function to correct for room anomalies, allowing for optimal performance and flexible subwoofer placement regardless of room size or shape. Designed to bring a reference-grade audio experience the Proficient FTEQ-12 subwoofer is a must for the most discerning ear and brings unprecedented sound performance and beauty to every installation.

FEATURES

Force Canceling Dual Drivers - Dual active Kevlar High Back-EMF drivers are mounted in a perfectly opposed configuration which cancels cabinet vibrations and transfers all energy into the room for incredible bass output.

Luxury Style - New high-gloss lacquer finish in striking Piano Black coats a 1" MDF Cabinet. A subwoofer you'd be just as proud to show-off, as well as listen to.

Flexibility - With the optional wireless audio kit you can place these subwoofers anywhere in a room to create an immersive listening experience.

Bi-Amplified Design - Each driver is powered by its own 1000W amplifier enabling the subwoofer to play frequencies down to 17Hz resulting in teeth rattling output as it shakes your home's foundation.

Auto Setup - DSP room correction easily configures the EQ settings with the push of a button. Allowing for the maximum listening experience wherever these are placed.

GENERAL SPECIFICATIONS	FTEQ-12
Woofer Size/Type	Dual 12" High-excursion Kevlar Cone with Big-Roll Surround
Frequency Response	17-200Hz
Amplifier Power	1000 Watts x 2
Communication Type	Bluetooth Low Energy
Crossover Frequency	40-500Hz
Voltage	100-120VAC or 220-240VAC Selectable
Cabinet	1" High Gloss MDF
Dimensions	19.2" x 18.1" x 17.7" (488mm x 460mm x 450mm)
Weight	102.5lbs / 46.5Kg
Warranty	2 Year
