

LOW PROFILE DESIGN
With a unique tilt head designed to nestle within the frame, RCAS170 lets your customers push their TV within 1.9" of the wall.

UNIVERSALLY COMPATIBLE
Boasting an impressive 88 lb weight capacity and support for VESA patterns up to $600 \times 400$, RCAS170 is suitable for most medium to large TVs on the market.

## FULLY ADJUSTABLE

RCAS170 can be tilted forward $12^{\circ}$ or backward $2^{\circ}$ and swivel up to $90^{\circ}$ in either direction. Post-installation horizontal leveling lets you dial in your clients' TV perfectly.

MADE FOR PROFESSIONALS
The RCAS170 comes with wall plate covers to hide any sign of installation, and a durable all-metal cable management system intended to last for years and prevents service calls.

## PLENTIFUL EXTENSION

Even with its low-profile design, RCAS170 can extend almost 22" from the wall, giving you plenty of room to work behind the TV and allow your customer to position their TV wherever they'd like.
