

Wattstopper

Convertible Occupancy Sensor, White
Part No. RS-250-W

The RS Series PIR Application Specific Wall Switch Occupancy Sensors replace standard wall switches throughout the home to automatically turn lights on when occupancy is detected. The sensors are engineered to perform without the need for adjustment when used in recommended applications.

Features & Benefits

- | | |
|---|--|
| Replaces standard light or fan single-pole switches | Automatic-on operation |
| Lighted switch for visibility in darkened rooms | Fixed five-minute time delay |
| Low-profile styling with uniform, color-matched lens and device | With the RS-150U option, no leakage to load in off mode for safety |
