

Product Name	Roam				
Primary Benefits	<b>WiFi and Bluetooth</b> Stream music and more over WiFi at home and listen on the go with Bluetooth. Roam automatically reconnects to your WiFi when in range and pairs with your phone when you're away for a seamless experience. *Must set up on private WiFi network before use.	<b>Small speaker, big sound</b> Precision-engineered acoustics create richly detailed sound that defies expectation for a speaker this size.	<b>Rugged durability</b> Solidly constructed and rated IP67, Roam is drop resistant, waterproof up to three feet for 30 minutes, impervious to dust, and ready for any adventure.	<b>Long-lasting battery</b> Enjoy up to 10 hours of continuous playback on a single charge. The speaker falls asleep to save power when not in use and wakes up in less than a second with the press of a button.	<b>Tunes itself like magic</b> Automatic Trueplay™ tuning is always optimizing the sound for the speaker's location and content playing. So no matter where you are or what you're listening to, it always sounds amazing.
	<b>Hands-free help from your voice assistant</b> Ask Amazon Alexa or Google Assistant to turn up the volume, check the news, control your smart home devices, and more.  *WiFi required.	<b>Versatile design</b> When vertical, Roam delivers room-filling sound and takes up barely any room. Position it horizontally on uneven surfaces like grass for added stability. The triangular shape subtly directs sound upward to your ear for a better listening experience.	<b>Ultra portable</b> Roam weighs less than a pound, and its handy shape begs to be picked up and taken with you everywhere.	<b>Control at your fingertips</b> Tactile buttons make it easy to play, pause, skip, revisit, and adjust the volume while protecting against accidental presses.	<b>Wireless charging</b> Drop Roam on any Qi charger, or magnetically snap it to our custom wireless charger to maintain its low-profile design.  *Sold separately.

Additional Features	<b>Easy to set up</b> When you're on your home WiFi network, just turn Roam on and open the Sonos app. The app will automatically detect the speaker and walk you through getting started step by step. *Must set up on private WiFi network before use	<b>Stream everything you love</b> Sonos works with all your favorite streaming services for music, podcasts, audiobooks, and more.	<b>Enjoy thousands of radio stations</b> Sonos Radio gives you access to more than 60,000 live stations from around the world and music curated by Sonos.	<b>Apple AirPlay 2</b> Send sound from your iPhone, iPad, or Mac to Roam and ask Siri to turn it down or skip a song.
	<b>Mute with the press of a button</b> Easily turn off the mic. The LED light will also turn off so you know your voice assistant isn't listening.	<b>Listen in stereo</b> Create a stereo pair when you put two Roam speakers in the same room and experience a wider, richer soundstage	<b>Sound Swap</b> Press and hold the play/pause button on Roam to more sound to and from your nearest Sonos speaker.	

## Product Descriptors

### Short Description

Enjoy incredible sound everywhere with Sonos Roam, the portable smart speaker for all your listening adventures.

### Long Description

Take incredible sound everywhere with Sonos Roam, the portable smart speaker for all your listening adventures. Enjoy music, voice control, and multiroom listening at home on WiFi, plus Bluetooth streaming, all-day battery life, and waterproof durability on the go.

### 5 Key Product Bullet Points

- Stream music and more over WiFi, and enjoy easy control with the Sonos app, Apple AirPlay 2, Amazon Alexa, and Google Assistant.
- Use Bluetooth when you take this waterproof, lightweight, and durable speaker on the go.
- Experience astonishingly clear and perfectly balanced sound with automatic Trueplay™ tuning.
- Get up to 10 hours of continuous play time, and recharge with the included USB-C cable or any Qi wireless charger.
- Create a multiroom sound system with other Sonos speakers and enjoy music, TV, and more all around your home.

## FAQs

### What's the difference between Bluetooth and WiFi?

Bluetooth pairs or connects devices using short-range radio waves. WiFi similarly pairs or connects devices, but it also connects to the internet, typically through a wireless router. Internet access allows you to stream higher fidelity audio over greater distances, group or stereo pair Sonos speakers, play content from Sonos Radio, use your voice assistant, and more.

### Will Roam work with my voice assistant?

You can ask Amazon Alexa or Google Assistant for hands-free help when Roam is connected to your WiFi network. While streaming with AirPlay 2, you can use Siri on your iOS device to control Apple

### How do I charge Roam?

Connect the included USB-C to USB-A cable to a 5V/1A or 2.1A USB power adapter, such as the Sonos Power Adapter. You can also place the speaker on any Qi certified charger or use the custom-designed Sonos Roam Wireless Charger (sold separately).

### Will Roam work with Bluetooth out of the box?

Roam must be set up with the Sonos app while on WiFi before you can connect a device directly via Bluetooth.

### What is the battery life of Roam?

Roam offers up to 10 hours of continuous playback on a single charge. When not in use, Roam switches to sleep mode to conserve power, and the battery can last up to 10 days.

### Can I create a stereo pair with two Roams?

When you are on WiFi, you can use the Sonos app to create a stereo pair with two matching speakers and enjoy detailed stereo separation and a wider soundstage for listening to music and other audio. A Roam stereo pair will not work as surround speakers in your Sonos home theater system.

Audio	Amplifiers	2 Class-H digital amplifiers perfectly tuned to the drivers and speaker's unique acoustic architecture.
	Woofers	1 mid-woofer ensures faithful playback of mid-range frequencies and maximizes low-end output.
	Tweeters	1 tweeter creates crisp high frequencies.
	Adjustable EQ	Use the Sonos app to adjust bass, treble, and loudness.
	Microphone Array	Far-field microphone array that uses advanced beamforming and multi-channel echo cancellation enables quick voice assistant activation and automatic Trueplay™ tuning.

Physical	IP Rating	IP67 (Speaker can be submerged in 1 m of water for up to 30 minutes.)
	Dimensions	6.61 x 2.44 x 2.36 inches
	Colors	Shadow Black, Lunar White
	Finish	Matte
	Weight	0.95 lb (0.43 kg)
	Included Accessories	USB-C to USB-A cable (3.9 ft/1.2 m)

Power & Connectivity	WiFi	Connects to WiFi network with any 802.11b/g/n/ac 2.4 or 5 GHz broadcast-capable router
	Bluetooth	Bluetooth 5.0 supports audio streaming from your Bluetooth-enabled smartphone, tablet, computer, or other device
	USB Port	USB-C 15W (5V/3A)
