Rugged construction plus tamper-resistance equals one safe receptacle

Tamper-resistant child safety outlets that conform to 2008 NEC® Article 406.11 are now available as a specification grade single receptacle. The sturdy mechanical shutter system helps prevent children from inserting foreign objects into the receptacle. Corrosion-resistant plated steel straps, rugged nylon faces and triple-wipe power contacts combine with tamper-resistant shutters to deliver safe and reliable long-term performance. Tri-drive mounting and backed out terminal screws combine to save installation time.
