

Now in more wattages and a new color!  
The small, light H17 high bay.

Now available in four models.

We've added two new power packages to the H17 family, making it even more versatile and ready to handle countless applications. All models have three selectable wattages and three CCTs.

480 VOLT OPTION

5-YEAR LIMITED WARRANTY

RAB's warranty is subject to all terms and conditions found at [rablighting.com/warranty](http://rablighting.com/warranty)

## It's dropped a few sizes.

The newest generation of the H17 is smaller and lighter than its already-compact original. The smallest body is less than a foot in diameter, and the entire family delivers incredibly high output, replacing up to 1000W MH while boasting even higher efficacy than before...all at a rock-bottom price.

**Lightcloud® Blue enabled.**

Available with factory-installed Lightcloud Blue compatibility, for use with our wireless, Bluetooth mesh control system.

## Accessories galore.

Various reflectors, refractors, lenses, and wire guards are available for the H17 family, in addition to mounting accessories and battery backups.

Can only be used with the polycarbonate refractor. May not be combined with the aluminum refractor.

Can only be mounted directly to fixture.

## Ordering Matrix
