All Fortress seating is manufactured in the USA.

Fortress' commercial 10-year warranty applies to all home theater seating products.

Fortress Provides Theater Seating for Everyone.

Off Broadway Home Theater Seating was developed specifically to address the need for custom seating in the dedicated and non-dedicated home theater. With over 7 decades of experience Fortress rapidly became the 'go to' company when off-the-shelf seating was not the answer.

First introduced in 1997, Off Broadway Home Theater Seating continues to evolve in order to meet the needs of today. At Fortress there are always new products in the concept stage. Whether it is form or function, we are continually investigating new solutions.

A Little About Fortress

Solving seating challenges since the 40's...

Primarily a design-oriented manufacturer, Fortress has been providing seating for executives and board rooms for over 75 years. In the late 1990's Fortress first manufactured theater seating for personal home theaters. With theater seating, design is important. But equally important is the comfort.

Theater seating... the beginning...

Fortress entered the home theater arena because there was a void when it came to custom seating. Designers were creating beautiful home theaters and integrators were designing custom audio and video, and the need for custom seating was apparent. Even with over 30 standard models from which to choose, the need for custom seating is more demanding than ever.

What a good theater chair needs....

Drawing upon the experience gained in building commercial seating has allowed us to build the strongest theater chair available. Seating is personal – that is why we build each chair according to the order. Comfort... Design... Quality is what you get when you buy a chair from Fortress.

Satisfied customers state...

"We chose Fortress because we wanted input into what our theater chairs would look like. At 6'8" a standard chair just didn't work. Thank you Fortress." And another, "We really wanted to maximize our room and thanks to Fortress' willingness to make chairs of different sizes, we were able to get 15 chairs instead of the 13 quoted elsewhere."

Our Pledge...

and our commitment to service doesn't stop once your chairs are delivered. Customers are important before and after the sale. That's our commitment to you and we've honored it for over 75 years.

From Concept to Satisfaction in 90 Days.

The Fortress Concept

Fortress defines custom as designing a unique piece of furniture to fit the room and the person. Whether working with specific dimensions, combining different design elements of existing products, or working from a blank canvas, Fortress has the manufacturing expertise to create your concepts.

Seating designed to your specifications

What is a Theater Chair

It is a chair designed to enhance your movie experience by providing the right support and line-of-sight viewing. Seating is an essential element in a well designed theater.

The Theater Chair Is But One Element Of Your Theater

It should complement the décor and blend with the space. Fortress offers clean designs, upholstered in a wide range of leathers and fabrics to enhance the overall aesthetics of the theater; or feel free to send us your own leather or fabric selections.

Standard Sizes

- Seat Width: 20", 22", 24" & 26"
- Seat Height: 19"
- Seat Depth: 20"
- Back Height: 24" (short), 26" (medium), 28"(tall)
- Overall Chair Height: 38", 40", 42" *
- Arm Width: 5" - 6"
- Wedge Arm: 5" front / 10" back
- Arm Height: 24"

* Overall height will vary depending on style

Custom sizes are available for all components.

Sofas and sectionals are built to order

Examples are: 2-seat sofa 60"
3-seat sofa: 85"

Reclining mechanisms can be added to any seat in the sofa.

Unless you tell us differently, all chairs come with cup holders.

Add 0.5" per seat for upholstery allowance. Slight variance may occur with model.

Viewing Positions

Position 1: Closed

Position 2: Foot Rest Extended

(Recommended viewing position)
Maintains line-of-site viewing because footrest extends before back reclines. Chair may be placed against back wall.

Position 3: Full Recline

When in this position, the chair need be only 5" from wall.

* Overall height will vary depending on style

Quick Connect Assembly

Tall Back 28"

Medium Back 26"

Short Back 24"
