## Don't Just Install It—Sell the Value.

Power management isn't just another line item—it's an opportunity to deliver greater reliability, reduce service calls, and build long-term customer relationships.

Join **Chris Kovacek** from Legrand on this month's PowerCast to learn how to position **Middle Atlantic Power** and **LeGrand's** new Xyte-powered remote management platform as value-added solutions your customers will appreciate. Discover how these technologies work together to simplify service, improve system performance, and help you create more profitable installations. Whether you're introducing power management for the first time or looking to strengthen your sales approach, you'll leave with practical strategies you can use immediately.
