

**TRUST IN VEROZZA**

**VEROZZA**

A NEKO LIGHTING GLOBAL PARTNER

## WHO WE ARE

VEROZZA Lighting, the exclusive North America partner of NEKO Lighting—a leading global supplier of lighting products—is an architectural lighting manufacturer providing specification-grade lighting luminaires that assist specifiers in achieving the perfect synergy between light and architecture in their lighting designs.

With an emphasis on engineering and precision manufacturing, we are committed to providing the specification community with premium and aesthetically pleasing luminaires while maintaining affordability and ease of installation for distributors and contractors. This commitment, coupled with superior customer service, makes VEROZZA Lighting a trusted partner for your lighting specification needs.

## TRUST IN VEROZZA

### The VEROZZA difference is TRUST

VEROZZA Lighting's trust in the marketplace is earned by understanding the challenges the lighting specification community faces and meeting those challenges head-on through surpassing expectations in every interaction.

We understand that the goals of good lighting design rely on an easily specifiable product that does what it is designed to do, is contractor-friendly, and cost-effective. That is why we focus on innovative product development to address our customers' requirements and changes within the lighting industry. VEROZZA works proactively side-by-side with specifiers, contractors, and distributors throughout the entire project lifecycle to provide comprehensive solutions to issues as they arise. And we partner with local sales agents throughout North America who possess a strong understanding of the changing market conditions, project applications, regulatory codes, and expertise in navigating the bidding process.

Trust is earned. VEROZZA Lighting provides a superior customer experience in a crowded lighting market that will leave you feeling confident knowing you can **put your trust in VEROZZA** every step of the way.
